About us

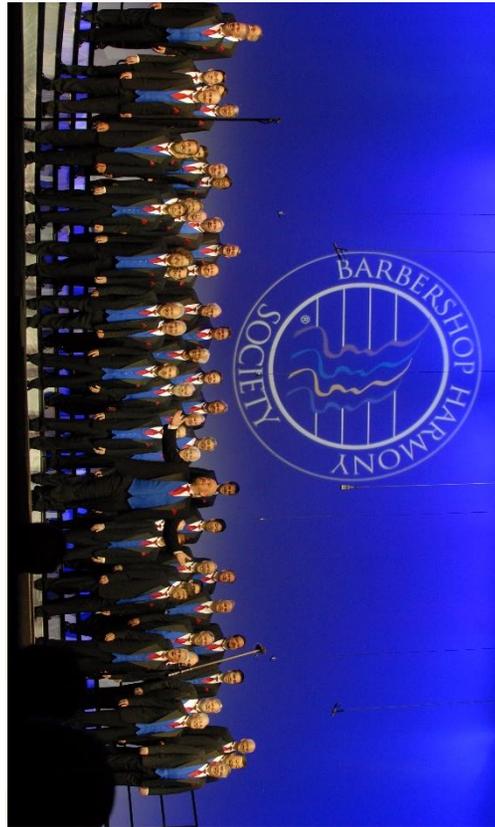

The Tidelanders, the Houston chapter of the Barbershop Harmony Society (BHS), a 22,000 member a cappella men's singing organization, is a volunteer chorus representing the ethnic and cultural diversity of Houston. There are nearly 800 BHS chapters in the United States and *The Tides* are consistently ranked among the top performing choruses in the Society.

Our chapter membership is broad-based, representing the ethnic and cultural diversity of Greater Houston. With the exception of directors and coaches who receive modest stipends, all of our members are volunteers. Our weekly rehearsals are well attended by our dedicated volunteers and are always open to families, friends, and guests!

The Tidelanders have been active in Greater Houston for over 70 years. We perform for several thousand people each year through competitions, performances and community outreach activities. We're committed to providing wholesome, high-quality, entertainment and encouraging young people to become involved in vocal music.

Joining the Tides

The only prerequisite for joining the Tidelanders is being someone who *loves to sing*. Prior musical experience or formal training is a plus, but not a requirement. The vast majority of our members are amateurs and many do not read music, but all are committed to learning their music at rehearsals and with the help of part-specific learning tracks.

After visiting our rehearsals three times, we hope you will decide to join. To do so, you will have a short meeting with members of our music team during which they will evaluate your vocal range, harmonization, and visual ability so that you can be properly placed in the chorus. After that meeting, your application for membership goes to the Board of Directors and the Barbershop Harmony Society for approval.
